Product Specification Sheet

Swivel Ear Piece for Motorola Two-Way Radios P-6423

Artisan Power's P-6423 is a single wire headset that works with many Motorola two-way radio series, including the CLS, XTN, RDX, DTR, and AX.

This headset features a swivel ear piece which allows you to use it on either ear for comfort, and a combined microphone and "push-to-talk" button, all on a single wire, for easy and unobtrusive use of your two-way radio.
