Artisan Power

Replacement Clip Assembly for the 8440 Phones P-8440PC (Pack of 2 Clips)

Reference Information

Artisan Power Part Number P-8440PC

Polycom/Spectralink Device 8440 Series Phone

Product Information

Replacement Spring Loaded Clip Assembly for the Polycom and SpectraLink 8440 Phones. These clips are designed with stronger plastics and high quality metal springs and screws to ensure a reliable fit within the phone and with the battery, as opposed to the clips on the OEM phones, which are prone to breakage, making it difficult for the batteries to stay connected with the phone.

Each pack of the P-8440PC comes with 2 Replacement Clip Assemblies, 2 replacement springs, 4 replacement screws, and instructions for installing the clips into the phone. Please note that installing the Replacement Clip Assembly requires that phone to be completely taken apart.

Physical Characteristics

Clip Color Green
